decals - chopping boards - recipe books - cheat sheets

thermoart.com.au

*Thankyou for purchasing our boards*  
**PLEASE READ THE FOLLOWING**  
*There is something you need to do before using!*

### ***Before using the chopping board for the first time***

To help make it easier to protect your chopping board from grease and to increase its natural resistance to moisture, you should treat it with food approved oil. We suggest oiling once, wiping off any surplus oil and repeat the process 24hrs later.

### ***Care instructions***

1. To clean your board either wipe it with a wet cloth or scrub with a brush to get into the grooves.
2. Do not allow your board to come in contact with water for a prolonged period of time as it could cause the wood to split.
3. Dry the chopping board carefully but do not try to accelerate the drying process with high heat.

***Not microwave-safe.***

***Not oven-safe.***

***Not dishwasher-safe.***

***Not for stove-top use.***

***You can download and print these instructions via the website.***
